

Judge steps through items in order from top to bottom and circles result.
 For last item, judge marks after observation judge states rocket separation.

Team Number:	Judge:	Team Initial:
Item		Result
Pre-Flight Checkout		
Send command to start telemetry	Success / Fail	
Send command to calibrate altitude	Success / Fail	
Is Packet count displayed	Yes / No	
Is Altitude plotted	Yes / No	
Is Battery Voltage plotted		
Is Battery Current plotted	Yes / No	
Is acceleration plotted X,Y,Z axis	Yes / No	
Is rotation rate plotted X,Y,Z axis	Yes / No	
Is mission time, temperature, GPS position, received packet count, lost packet count, and flight software state displayed.	Yes / No	
Are all data shown simultaneously in the ground station main dashboard	Yes / No	
Are plots and telemetry displays updating before launch	Yes / No
